MANAGEMENT DISCUSSION AND ANALYSIS

INDUSTRY STRUCTURE AND DEVELOPMENT

There is a general upward trend in demand in all the markets, however, there are pockets of growth in selected markets and selected sectors. The Iron and Steel prices remained steady throughout the year. Gulf and USA markets are poised for growth whereas Germany and UK markets continue to be volatile with Greece's poor economy and higher unemployment. The Domestic market is stable especially the tractor industry.

OPPORTUNITIES AND THREAT

A steady US Dollar gives your Company an opportunity to grow further in the export markets coupled with this is the strong signs of good infrastructure growth in the Gulf Region & USA.

Steady prices of Raw Materials and other Foundry chemicals are a healthy sign for the foundry industry. Coupled with this is the improved foreign exchange rates which provide a good opportunity for our industry to grow.

International threats of economic failures such as in Greece could weaken Euro and the growth prospects in Europe. Falling economy in China could result in Chinese Companies dropping their prices in international market and getting more competitive.

A sluggish domestic market leads to foundries within India competing against each other in the global market thereby increasing the inter-se competition and affecting pricing.

SEGMENT-WISE PERFORMANCE

The Management reviewed the disclosure requirement of segment wise reporting and is of the view that since the company manufactures Castings & M.S. products which are subject to same risk and returns and hence there is one primary segment in terms of AS-17, a separate disclosure on reporting by business segments is not required. The analysis of geographical segments is based on the areas in which the Company operates.

FUTURE OUTLOOK

In the current fiscal year, we expect to strengthen our presence in the North American markets by addition of newer products. We also have plans to do steady business in the domestic market. This should bring an additional growth in the turnover. The US Dollar and Euro are expected to remain steady and market volumes are expected to improve compared to the previous year.

RISKS AND CONCERN

Being predominantly in export, your Company's revenue is always subject to risks of exchange fluctuations. The Company has adopted a comprehensive risk management review system wherein it actively hedges its foreign exchange exposures within defined parameters through use of hedging instruments such as forward contracts. The matter of concern however remains shortage of skilled labour resulting in higher labour cost. In order to overcome this problem your Company is laying stress on in-house training and skill development, besides retention of the skilled workers.

Some Overseas Customers are taking longer credit period for the payments hence the Sundry Debtors amount has increased. Management takes this as a matter of concern and is monitoring the same very closely.

INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY

Your Company has an adequate system of internal control commensurate with the size and nature of its business which ensures that all transactions are recorded, authorized and correctly reported apart from safeguarding its assets against loss from wastage, unauthorized use and removal.
